

Model : **ECO 360**

» Fully Automatic «

Salient Features

- Fully Automatic machine (Recovery, Recycling, Vacuum & Recharging)
- Automatic leak test
- Ergonomically designed Chassis Easy to service
- 360° status indicator
- Robust sensor protection-Shock mounted Bigger wheels - Better maneuverability
- Foldable HMI Option for user database SW update through USB

Technical Specification

Type of refrigerant	R134a
Service procedure	Automatic / Manual
Display	LCD Monochrome 20x4
Filter system	2 filters
Vacuum pump capacity	2.5 CFM, 1/4 hp
Compressor	8.85 cc
Refrigerant recharging / Accuracy	± 25 gms
Refrigerant bottle	12 kgs
Power supply	230V AC, Single Phase, 50Hz
Power	700 W

Standard Accessories

Pneumatic Jack with Trolley (4T)

- Lifting capacity 4 Ton
- Pneumatic pit jack to lift the Cars & LCV
- Trolley with wheels give access to move the jack from front to end of the pit

Impact Wrench

- **1/2" Impact Wrench** to remove wheel nut in PCVs & SUVs
- Capacity bolt size - 19 mm
- Working torque : 525 Nm
- Free speed 7400 RPM
